I am a scientist with 10+ years of experience in genomics and evolutionary. My training includes using a range of tools - genomics, population genetics, molecular biology - to answer interesting questions in human health and molecular evolution.

Some stuff about me

- I poisoned myself doing research.
- I was the first woman to win a Nobel prize
- I was the first person and only woman to win a Nobel prize in two different sciences.

Education

Flying University

INFORMAL STUDIES

Warsaw, Poland

1889-91

Sorbonne Université

MASTER OF PHYSICS

Paris, France

1893

Sorbonne Université

MASTER OF MATHEMATICS

Paris, France

1894

Nobel Prizes

1903 Nobel Prize in Physics

Awarded for her work on radioactivity with Pierre Curie and Henri Becquerel

1911 Nobel Prize in Chemistry

Awarded for the discovery of radium and polonium
